All businesses and websites are different, if you don't feel your website fits into one of these packages we can arrange a custom package including hosting, backups and as many updates and hours as you need, get in touch with your requirements and we'll work out the perfect arrangement for you.

We also do web fixes starting from \$150/job.
Basic hosting and domain can be added at \$50/month.

HOW IT WORKS

1. **Select a plan that fits your maintenance needs**

Our service plans make maintaining your website easy to grasp without going overboard. We remain on your team for the life of your service, help is always a click away.

2. **Send us your update via email**

After selecting your plan, you can send us your updates right away! Sending us your updates is as simple as sending an e-mail.

3. **We get to work! Backup & apply your updates**

We confirm your updates and give you your projected delivery time. Most updates are completed within 24 hours, some even the same day! We can even let you preview your changes before going live.

4. **Review. Approve. Your changes & Updates go live!**

Great! You approved your changes and your website is nice and tidy. We remain available for help, maintenance, and general upgrades to keep your website relevant and current.

FAQ (Frequently Asked Questions)

✓ **What kind of design support that the client get?**

If you choose Professional & VIP packages, we can edit your file like cropping, adjust brightness contrast, cleaning up images, and resize image. The services does not include any Digital Imaging or create new design elements like combine photo or creating icons.

✓ **How long does a task take to complete?**

We aim to respond to all customer requests within 24 hours from Monday to Friday but at busy times this may be longer, up to the times shown.

✓ **What if the task is outside the plans?**

In some cases if a service request exceeds your plan capabilities we will supply you with options and the additional charges that would be required to fulfill the request.
